**WE ARE THE STORY MAKERS**

## GLAMPRO TEAM

We are a team of experts in the field of glamping and resort design with the experience and know how to transform your idea into a successful business.

## WHAT IS GLAMPING

Glamping stands for glamorous camping, being as close as possible to the natural elements without sacrificing comfort - a 5-star experience under the stars. When you glamp, you can expect amazing landscapes, natural bio-pools, private whirlpools, spas and unique accommodation that you've been dreaming of since you were a child, without giving away the comfort of your own home.

Glamping is on the rise. People are looking for a unique back to nature experience, which at the same time offers unparalleled luxury and comfort. Five star hotel rooms are not good enough anymore. All of our resorts are based on a specific theme, and our visitors become a part of that unique and special story.

- well above average return on investment,
- price premium rates,
- new types of guests,
- media exposure,
- worldwide demand.

GARDEN VILLAGE BLEĐ

## The Story:

The concept of the construction and operation of Garden Village Bled is founded on innovation, green tourism, energy self sufficiency, and other modern principles of boutique eco-tourism. Our philosophy is to develop each project in harmony with geographic, cultural, and other characteristics of a specific environment, with an emphasis on considering landscape architecture.

## Key features:

The resort consists of 23 unique accommodation units of four different types, which are, along with all associated support facilities, part of the architectural and landscape visual identity. Each year, Garden Village Bled is visited by very large number of guest from all over the world.

## KURO TARANGIRE TARANGIRE NATIONAL PARK, TANZANIA

The north of Tanzania is famous. This is the land of the Serengeti, the Masai Maasai herds, the wildebeest, and here is one of the densest concentrations of wildlife in Africa. Now, there's a new, lesser-known and equally spectacular Tarangire National Park, where you'll find this safari camp. Just six tents, set in a grove of acacia trees, offer guests a touch of luxury - thick beds, ensuite bathrooms and air-conditioned frames of the wilderness. The day starts with a dawn chorus of birds and, before it ends at dusk, there's the open-sided thatched dining hut, you'll marvel at the high levels of dry-garden and wildlife, and spy crocodiles, giraffe and other game nearby. Packed of fun and this summer, but the park's highlights are a little more quiet.

**WINNING THE BET...** In the cool evening air, with along the riverbank to discover the finest birdlife and search for evidence of nocturnal wanderings by other wildlife. Later, get an animal fix in an open-air cafe - either over the phone or towards the Wilde Swamp. There's even the option to take after-dark game drives.

**NEED TO KNOW** Kuro Tarangire is open during the dry season (June to November), and stays here are best combined with nights at one of Masai's other camps. From about \$29400 a night per person.

## GARDEN VILLAGE BLED LAKE BLED, SLOVENIA

Located in a country already considered something of a hidden gem, Lake Bled is one of the most beautiful and scenic places on earth, surrounded by forests and alpine forests with mountains of the sort you thought only existed in story books. Among all this natural splendour is the new, recently opened offering a top spot to regenerate during a grand European adventure. There are two options of the best nearby site and nearby you can enjoy over the water, and here there are many glamping tents complete with en-suite bathrooms, being open and into the forest. Opened in June this year, Garden Village really is a new type of travel community - a little bit more local, but with the same charm. Instead there is an alpine post, surrounded by greenery with open fire, Finnish sauna, smart restaurant and electric rental cars.

**WINNING THE BET...** There is a bit of a parade of activities to which to partake, from river tubing to bike tours, hiking to paragliding. Definitely pack a picnic and head, via phone, a traditional wooden boat, to beautiful Bled Island.

**NEED TO KNOW** Open between March and October. Pier tents start at about \$12115 a night for two; glamping tents from \$18220 (plus tax), including breakfast.

## Top 5 Glamping Hotels Around the World

Camping isn't done the LuxuriousPROTOTYPE way unless you've got a butler to make your fire, electricity for appliances, and an outdoor Jacuzzi—wouldn't you agree? Glamping (glam camping) has spread its wings across the globe and rightly so.
